Unbeatable

Created by professionals in the pet grooming industry, 123Pet software was made with you in mind. Every feature available to organize and streamline your business is included. We also offer unsurpassed customer support, making 123Pet software **the best software in the industry.**

Refined

123Pet software is the simplest and most straightforward business management package available. Every feature has been developed for **quick, easy, and efficient use.**

Expandable

123Pet software includes the ability to track and manage virtually anything. From employees to appointments to inventory, we have you covered. Other features, such as payroll, online booking, and credit card processing **can be added as your business grows.**

Reliable

123Pet software uses the most reliable database system available, Microsoft SQL Server, which includes a dependable, automatic backup feature. You can be sure your information is secure and available to you, **whenever and wherever.**

123Pet software was created over time by incorporating suggestions from business owners such as yourself. Through this process, 123Pet software not only developed a relationship with the users themselves, but has also improved the program to become what it is today.

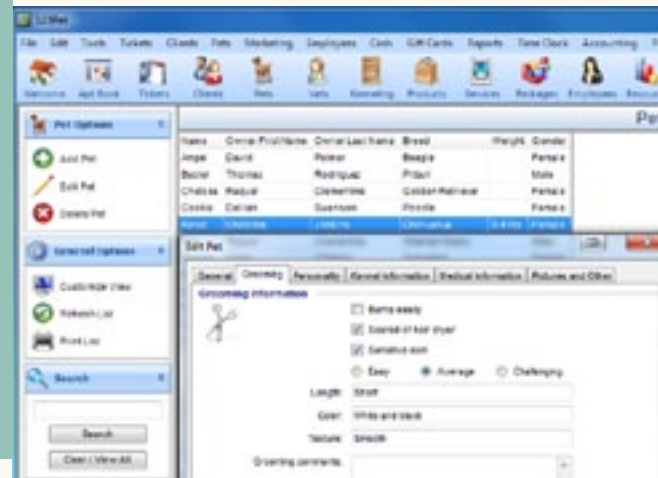

A Necessity
For Running
a Successful
Business.

Outstanding Support For A Quality Product

Our software was originally developed over 12 years ago. Through meticulous research of industry standards and business needs, 123Pet software is consistently kept up-to-date.

It is truly a modern, quality product.

We offer free e-mail support, phone training, webinars, training videos, and a complete user's guide. Also, because 123Pet software is developed and supported from within the United States, our knowledgeable and friendly customer support & training staff will be here to help.

Unlimited

releases for life

Online Booking

Your clients can schedule an appointment even when your business is closed

123Pet will send you an alert when a new appointment is booked
Clients are able to schedule services with specific employees
Included is a fully functional website to promote specials and market to potential clients

Functionality

never looked so good ←

-
- easily search for openings
- streamlined system for **boarding & kenneling**
- quickly view employee schedules
- define a service as spanning across multiple days
- fast drag-and-drop rescheduling

being able to track and store **Detailed Pet Information**

allows you to

Provide A Unique Experience to every pet that walks through your door.

complete purchase details | referral & loyalty programs | pet photo albums | e-mail and text reminders | in-depth grooming history

Basic Information

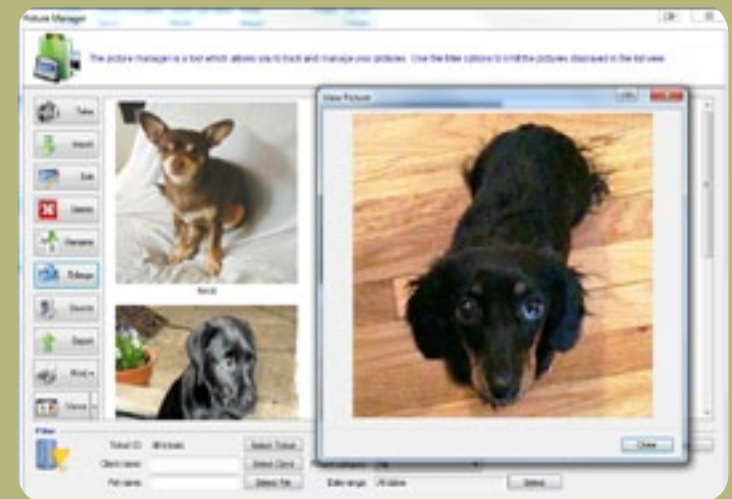

Record information about your clients and pets such as name and breed, as well as notes on their behavior, preferences, medical history and more.

Grooming History

Stay on top of your clients' preferences by keeping detailed notes on their pets' appearances, as well as saving before and after pictures using the **picture manager tool**.

Vaccination Record

Define your own list of vaccinations, mark if the vaccination is required or not, and choose to be notified if a vaccination is going to expire within 30 days of booking an appointment for a particular pet.

Access Your Information Online

Connect to Your Business
Anytime, Anywhere.

From any computer or with our free mobile apps you are able to book appointments, check your schedule, run reports, look up pet information and more - all while you're on the go.
